Advaita

Expressions of the Non-Dual

All creation is the expression of the one which is the whole, as it comes from the whole, remains the whole and returns to the whole. Eventually, there is none other than the One, the Non-Dual.

पूर्णमदः पूर्णमिदं पूर्णात्पूर्णमुदच्यते । पूर्णस्य पूर्णमादाय पूर्णमेवावशिष्यते ॥

Within this whole, are myriad colours, multiplicity of inter-twined forms and expressions, languages, voices, emotions and faces, the living, the non-living and the phenomenal.

Every individual observes, absorbs and expresses his experience in unique ways. These expressions become even more special when expressed through those who perceive the reality in special ways than most of us do, who can see what we normally may not see.

These special individuals bring out the beauty which has never been seen before, nor will be repeated again. We may call these amazing beings as neuro-diverse for the sake of our understanding, yet like anyone, they are just as much whole as anyone else, as they are creations of the one creator.

Come, join us, as we take a glimpse of their distinctly beautiful world through their artworks. In these works, we may even get aware of our own inner beauty, our own mystery, we may just be even able to get a glimpse of the whole as one, the non-dual, Advaita.
